

Farm Lodges

What to expect

A farm lodge (country house) is a guesthouse which is situated in peaceful surroundings near a forest, river or maybe even a lake. Farm lodges usually focus more on the affluent market and should offer all the facilities that a hotel can offer, which includes meals and drinks.

Is it suitable?

Should you require luxury accommodation in relaxing surroundings, this should be your destination. Usually sports and other recreational activities are available in spacious surroundings and this would make it an ideal option for a family. As meals and drinks are available, farm lodges are perfect for romantic getaways or even longer stays.

What to ask?

Some bathrooms have the option of bath/or a shower and room may have two single beds or one double bed. State your preference. Make sure about bar facilities or maybe a bar fridge in the room. Some farm lodges even offer spa facilities. Check which recreational facilities are on offer e.g. boating or any other water activities, hiking routes, tennis courts, and 4x4 trails.
